

Mr. N.Ravishankar
Chairman & Managing Director

USER EXPERIENCE IS EVERYTHING. IT ALWAYS HAS BEEN AND WILL BE...

Triway group of companies, founded in 1994, was built with fire and passion to deliver. Every successful organization bespeaks one or more such visionaries behind it, however, the uniqueness of Triway lies in its evolution. Expanding and growing into a multi-armed logistics service provider is possible only with the constant improvement and tireless efforts

This is where Mr. N.Ravishankar's role has played the most significant role. Mr. Ravishankar did not rest with just the conceptualization and inception but has been a constant Innovator both in his company and industry! Having been customer-centric, right from the beginning, he raised the bar of user experience every time with the introduction of added services. Being a true socialist in heart, he not only employed more than nine hundred people but went on to encourage people to become entrepreneurs. Having nurtured a spirit of entrepreneurship he mentored countless professionals in the skills of negotiation, integration and management.

Mr. Ravishankar has been playing a pivotal role in many social causes like equipping various Government schools with infrastructure and building toilets. Having understood the acute water problem in the area, he has undertaken desilting of numerous ponds which helped enhancing the water table. A constant and awe-inspiring persona may not be very rare but channelizing those qualities for society and not just self-gratification is a choice. This choice is what makes Mr. Ravishankar a true leader.

Triway group is a manifestation of the standing ovation that he receives day in and day out from his team.

THE 360 DEGREE CUSTOMIZED, END TO END SOLUTION TO ALL FREIGHT NEEDS !

The year 1994 saw a visionary, Mr.N.Ravishankar investing his penhant for customer empathy and personal goodwill, started Triway Group.

Triway group was founded on the passion for providing the best solution to the customer with a humble team of just eigh teen. Today it has grown into a whopping three hundred plus team, handling branches spread all over India.

Triway has been serving customers across the industries like garments/ textiles, pharmaceuticals, engineering goods and many more. The line of services provided a variety of import, export, customs clearence, warehousing and logistics support services.

Triway, with its acumen to comprehend the untold need of customers soon received endorsement for its standards. IATA recognized and a member of FIATA and Indo American Chamber of Commerce, Triway has taken all measures to make sure that its infrastructure and resources are endorsed and certified. Triway understood that having a state of art and the latest version of the system might not suffice till the customer is assured of it.

"To serve the customer, it is necessary to grasp the customer's changing and evolving needs, which in turn demands that we keep ourselves abreast of the latest both in the industry and in the world. This is why I encourage my team to think and act like an entrepreneur". Said Mr. N.Ravishankar summarizing what Triway Group stands for.

LEADING CUSTOMS BROKER

Triway Forwarders Private Limited is a licensed customs broker, authorised to represent and complete the import and export formalities with the customs authorities.

Triway Forwarders specializes in serving different segments of the same industry with different solutions.

Waymark started more as an extended hand to Triway Forwarders as licensed Customs Broking Companies, soon developed into an icon of its own.

Triway, over the years have learnt the nuances of both the government processes and customer's needs enabling us to serve them better.
